Check out our new **Online Continuing Education Courses** Pre-approved for Continuing Education [www.healthclick.com/physical-therapy-online.cfm](http://www.healthclick.com/physical-therapy-online.cfm)

This course is 18 contact hours, 1.8 ceu's for therapists licensed in Florida, North Carolina, Illinois, New York or the District of Columbia. This course is 15.0 contact hours, 1.50 ceus for therapists licensed in other states

BOC provider #P2047 | FL OT #50-1442  
AOTA Provider #4487 | IL Provider #216000074

**This course meets the ceu requirements for physical therapists and assistants licensed in Florida, call for approval number. FL OT provider # 50-1442.** This course meets the Texas license requirements for PT, OT, PTA and ATC ceu's/ccu's, call for approval numbers. This course has been approved for CEU's by the Oklahoma Board of Medical Licensure. NAS is approved by the IDPR for ceus for physical therapy license renewal in the state of Illinois. Illinois PT provider #216000074. This course meets the continuing education requirements for physical therapists in the States of Alaska, Colorado, Connecticut, Idaho, Indiana, Massachusetts, Missouri, Montana, New Hampshire, New Jersey, North Carolina, Oregon, Rhode Island, Utah, Vermont, Virginia, Washington and Wisconsin. This course has been approved by the Maryland Board of Physical Therapy Examiners. North American Seminars, Inc. is an AOTA provider for continuing education, provider #4487. The AOTA does not endorse specific course content, products or clinical procedures. The Alaska, Arkansas, Delaware, District of Columbia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Minnesota, Mississippi, Missouri, Montana, Nevada, New Hampshire, North Carolina, Ohio, Oregon, Oklahoma, Rhode Island, South Carolina, Tennessee, Texas, Vermont and Virginia occupational therapy regulatory boards accept courses presented by AOTA providers to meet the needs of OT continuing educational requirements. BOC Provider #P2047. The New York State Education Department, Office of the Professions has approved NAS as a continuing education sponsor for physical therapists and assistants licensed in New York.

# Comprehensive Management of the Wrist and Hand

for Successful Functional Outcomes

## About the Educator

Edward Fiore, OTR/L, CHT, M.Ed, is a Certified Hand Therapist with over seventeen years of experience in all areas of rehabilitation, with specialization in orthopedic management. Treatment specialization includes overuse syndromes, nerve compression, splint fabrication, tendon repairs and fractures of the upper extremity. The instructor also has specialized training with ergonomic job-site analysis. Mr. Fiore currently works for a private corporation and resides outside Charlotte, NC. He holds a Masters Degree in Education, with specialization in education technology. Mr. Fiore has lectured on management of common hand injuries, nerve compression and overuse syndromes. Over the past several years, he has instructed therapists on upper extremity evaluation and treatment. Mr. Fiore has had the distinct privilege of presenting at the Joint Session for American Society of Hand Therapists and the American Society for Surgery of the Hand. He has also presented to the Florida Hand Society at several annual meetings.

**The Interactive Shoulder Algorithm™** new version 3.0 home study and reference tool provides clinicians with a step-by-step process to effectively evaluate the shoulder complex for orthopedic dysfunction. Therapists will significantly increase the efficiency of their examinations by mastering the information in this teaching tool. Effective rehabilitation programs can be developed by the clinician through greater understanding of the testing sequence and the anatomical implications of the tests. The experienced clinician can utilize this software to obtain a master level understanding of shoulder testing procedure. Each test segment detailed in the software covers critical pathways, position of the patient, position of the clinician, position of the clinician's hand, direction of movement of body part, tissues implicated, indications of a positive test and amount of force to be applied. Twenty-nine tests for shoulder evaluation are clearly defined through digital video, 3D animation and biomechanical motion. George Davies, DPT, MED, PT, SCS, ATC, LAT, CSCS, FAPTA provides narration and technique demonstration in each video. Basic anatomy of the shoulder is also explored. The software is \$116.96 if purchased with registration (regularly \$129.95). For an additional \$75, 1.05 CEU's, 10.5 hrs CEUs can be obtained from the submission of the enclosed post test. Multiple therapists may obtain CEU's from one software purchase. This software is guaranteed to meet your satisfaction. Requires Windows XP or 7 or MAC OS X CDROM drive, 128 MB RAM, 15MB hard drive space. The software runs off the CD and can be easily moved to different computers. Call for multiple CEU test pricing. See [www.healthclick.com](http://www.healthclick.com) for additional details. California Approval # PTNAS-201481 IL Provider #216000074. DC approval #DC-1072. PA Board approval #PTCE001458(10DA, 5GEN). WV PT approval #NAS-F12-05. This course has been approved by the MD Board of PT Examiners.

## Why You Should Attend This Course

This two-day intermediate course has been designed to provide the medical professional with information needed to effectively treat conditions of the hand and wrist through clinical problem solving. Anatomy of the upper extremity will be discussed throughout the course. Case studies on selected disorders of the wrist and hand will be followed by in-depth discussion of the various rehabilitation approaches. Topics that will be discussed include: soft tissue injuries, flexor and extensor tendon repair and rehabilitation, edema management, scar remodeling, the stiff hand, flaps, graphs, burns, fractures, splinting concepts and arthritis. Surgical considerations and techniques will be presented to assist the clinician with the development of a thorough treatment program. Special attention is provided to "clinical pearls," tips for the clinician in managing complex wrist and hand disorders. This course has been designed for the therapist to immediately apply the information in the clinical setting.

## Course Objectives

Upon completion of this course, participants will be able to:

- Understand detailed aspects of the anatomy and biomechanics of the wrist and hand.
- Integrate knowledge of anatomy and current surgical procedures to develop comprehensive therapeutic rehabilitation programs.
- Describe carpal and phalanx fractures and understand treatment of both conservative and surgical intervention.
- Enhance the fundamentals of healing tissue and how clinical protocols are predicated on the stages of tissue healing.
- Perform a thorough examination of the hand, integrating biomechanical assessment with clinical problem solving.
- Develop assessment techniques and treatment strategies of the wrist and hand to include soft tissue injuries, fractures, flexor and extensor tendon injuries, nerve compression, common arthritic problems and burns.

Certificates of completion will be provided upon successful completion of the course.

**This course is 15.0 contact hours, 1.50 ceus/1.5 ccu's**

This course is 18 contact hours, 1.8 ceu's for therapists licensed in Florida, North Carolina, Illinois, New York or the District of Columbia
